Creatine and Adolescent Athletes

WHAT TO KNOW
ABOUT CREATINE

Creatine is a popular dietary supplement that can boost muscle growth and enhance athletic performance, but do young athletes need it? Our expert partners at the Sports Medicine Center at Children's Hospital Colorado explain what creatine is, how to approach this supplement with children and how a dietitian can help. Link to article [here](#).

CHILDREN'S HOSPITAL COLORADO
IN THE NEWS

Calling All Snowman Builders!

Some kids need to stay in the hospital to get better. But that does not stop their imaginations from wandering far beyond our walls. Take these snow creations, for example, imagined by our patients and brought to life by families near and far through the Snow Buddies Program.

This snow season, you're invited to help bring our patients' creations to life! All you have to do is sign up, then wait for your snow-person specs and a fresh snowfall. We hear it's as much fun for the volunteers as it is for our patients.

Check out a few favorite creations below, then scan QR code to sign up!

Ends: March 31st, 2024
